TASTY TIP
Always spread
clockwise!

HOW TO USE CREPE SPREADER

Crepes-making is a fantastic kitchen skill to have; crepes are easy to make and can be used in many different cuisines. We have used our crepe spreader to make spring roll wrappers, tortillas or this months dosa, as a great compliment to our Indian inspired dishes.

To use your crepe spreader, immediately start twirling the spreader around the surface of the batter, so that the inside stays still and the outer sweeps around like a really fast clock-hand. This takes a bit of practice to get the unusual wrist motion right, but once you grasp the concept it works beautifully.

TASTY TIPS

Practice on a cold pan
If necessary, press the spreader
gently as you turn it

TASTY TIPS

Make sure your batter is thin,
has no lumps. Pass it through
a sieve if necessary.
